RE: Participant Alexander Wasil – Notice of Intent to Vacate Probate Order / Dispute of Records Refusal

Dear Ms. Brady,

I am writing in formal response to your correspondence dated June 12, 2026, regarding the Trust Funds' refusal to disclose the requested administrative file and retirement election forms for my father, Alexander Wasil.

Your office states that you are relying on a Summary Release from Administration entered on July 22, 2021, by the Probate Court of Summit County, Ohio, which authorized asset transfers to Wendy Wasil to my absolute exclusion. Please be advised that this 2021 order is procedurally and legally voidable.

**Under Ohio Revised Code § 2113.031 and Ohio Supreme Court Probate Form 1.0, an applicant for a Summary Release must list all surviving next of kin under penalty of perjury. As a biological son and direct heir at law, I was entirely omitted from those filings and was intentionally denied statutory notice while incapacitated and recovering from a major stroke.**

**The Social Security Administration records (including Form SSA-L99-C1) and federal verification documents previously provided to your office conclusively establish my identity as a direct interest holder in this matter.**

**Your reliance on a probate order obtained via the fraudulent concealment of next of kin puts the Trust Funds at direct risk of administrative and fiduciary liability should benefits be improperly cleared based on an invalid instrument.**

Please ensure that all historical accounting ledgers, original signed retirement selection forms, and internal notes regarding Alexander Wasil are strictly preserved. I am currently preparing to retain Ohio-based probate litigation counsel to formally file a motion to vacate the July 22, 2021 Summary Release in the Summit County Probate Court due to fraud and lack of notice.

Once that fraudulent order is set aside by the court, a formal subpoena duces tecum will be served upon your office to compel the immediate production of the complete administrative file.

Regard,

James A. Wasil
